

SAVE OUR LAKES

JANUARY 2023 Volume 23, Issue 1

The Geneva Project

The urgency for action regarding the removal of the trees in the lake bowl of Lake Geneva is clear. A lake grass bed ('53) became dry ground ('99). Full grown trees (2015) become dead trees (2018) submerged in the rising water levels (2021-22). In 5 more years, all of the trees seen here will likely be submerged as well.
